	Commissioner
By delegation to:	
	Matt Catterson
	Sitka Area Assistant Management Biologis
	Division of Sport Fish

# JUSTIFICATION:

5 AAC 47.030(f) allows the department to close an area around a fish weir to sport fishing in order to provide uninterrupted passage for fish and minimize vulnerability of salmon to sport fishing pressure that can become concentrated prior to passing a weir. Closing a portion of the Situk River to sport fishing is necessary to protect king salmon staging in several pools downstream of the weir from incidental hooking and catch-and-release angling practices.
